Mr. Jorge Caspary
Federal Facilities Coordinator
Florida Department of Environmental Protection
Twin Towers Office Building
2600 Blair Stone Road
Tallahassee, FL 32399-2400

**SUBJECT: CONTRACT N62467-89-D-0317, INSTALLATION RESTORATION PROGRAM
FOCUSED REMEDIAL INVESTIGATION/FEASIBILITY STUDY
PSCs 3 AND 42, OPERABLE UNIT 2
NAVAL AIR STATION JACKSONVILLE, JACKSONVILLE, FLORIDA**

Dear Mr. Caspary,

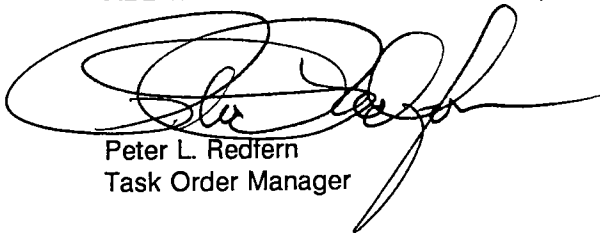

The U.S. Navy, through its contractor, ABB Environmental Services, Inc., is required to provide EPA and FDEP sampling results within 120 days of the taking of the last sample for a media sampling event. Enclosed please find one hardcopy and a 3½" disk containing the electronic file for samples collected between January 19 and March 2, 1994, at PSC 3 (Former Wastewater Treatment Plant Sludge Disposal Area) and PSC 42 (Former Wastewater Treatment Plant Polishing Pond), Operable Unit 2, NAS Jacksonville.

The diskette contains the executable compressed file NSJX3&42.EXE. Instructions for decompressing this file are listed in the diskette label. Upon decompression, the text file NSJX3&42.TXT can be accessed directly by most database, spreadsheet, or word processing softwares, e.g. Paradox®, Lotus®, or WordPerfect®.

Please do not hesitate to give me or Dr. Alexander Olis a call at (904) 269-7012 if you have any questions or problems accessing this electronic data deliverable.

Respectfully submitted,

ABB ENVIRONMENTAL SERVICES, INC.

Peter L. Redfern
Task Order Manager
